Summary

Backend-focused Software Engineer with **2 years of experience** building scalable backend systems using **Java (Spring Boot)** and **Python (Django)**. Designed and scaled systems used by **600+ engineers**, with focus on API performance, authentication (**RBAC, LDAP**), and automation of **CI/CD** and cloud workflows.

Experience

Software Engineer **PTC Software (India) Pvt. Ltd.** *Jul 2024 - Present*

- Built a Central Server Manager (CSM) platform used by **600+ engineers**, designing scalable backend architecture.
- Built responsive React-based dashboards using **Ant Design, PrimeReact**, Redux, Context API, React Hooks, ApexCharts, lazy loading, pagination, and filtering.
- Implemented **RBAC with LDAP-based authentication** and secured APIs using authorization controls.
- Optimized backend APIs and database queries using **caching, rate limiting, and indexing**, improving performance by **30%**.
- Improved system reliability using **global exception handling**, validation, and structured logging (SLF4J), reducing issue resolution time by **30%**.
- Designed **transactional APIs with pagination and filtering** to efficiently process **10k+ records**.
- Developed **asynchronous backend workflows** and Redis-based queuing for scalable job execution, reducing manual effort by **20%**.
- Built and maintained **CI/CD pipelines** using Jenkins and GitLab CI, automating deployments and reducing effort by **40%**.
- Automated infrastructure provisioning and cleanup using **Azure CLI and Python**, reducing operational overhead and costs.
- Built platform solutions using **Backstage (IDP)**, **ServiceNow workflows**, and **Azure Marketplace** deployment to streamline internal developer workflows.

Software Engineer Intern **PTC Software (India) Pvt. Ltd.** *Jul 2023 - Jun 2024*

- Designed end-to-end system architecture and UI workflows (**Figma**) for the CSM platform.
- Gained hands-on experience with **Linux (RHEL)** and **Azure (VMs, storage, CLI)**, supporting infrastructure setup and automation tasks.
- Improved internal tools (**Django, React, PostgreSQL**) by enhancing performance, UI/UX, and code maintainability.
- Automated server health monitoring and Azure resource cleanup using Python scripts, reducing manual effort and infrastructure costs by **10%**.

Android Developer Intern *Memoneet Pvt. Ltd.* *Dec 2022 - Jun 2023*

- Developed features for an Android app with **1M+ downloads**, integrating REST APIs and improving data handling.
- Integrated WATI APIs to automate FAQs and notifications for **20,000+ users**.
- Built a feature that contributed to a **30% increase** in subscriptions.
- Used Firebase Analytics to track user behavior and support product improvements.

Projects

QuickServ — Service Aggregator Platform *2025*

- Built a service aggregator platform using **Spring Boot, React**, and **MongoDB** with location-based service discovery and category filtering.
- Secured APIs using **JWT, RBAC**, and **OAuth 2.0 (Google Login)**.
- Designed optimized REST APIs with **pagination**, filtering, and MongoDB indexing.
- Deployed backend on **Render** and frontend on **Vercel** using production-based configurations.

LinkZen — URL Shortener Backend System *2026*

- Built a URL Shortener application using **Spring Boot, React, MongoDB**, and **Redis** for efficient URL management and fast redirection.
- Designed REST APIs for URL generation, redirection, and analytics with optimized database indexing.
- Implemented **JWT-based authentication** and containerized deployment using **Docker**.

Technical Skills

Languages: Java, Python, TypeScript, C++, SQL

Backend & APIs: Spring Boot, Hibernate, JPA, REST APIs, Microservices, Spring Security, Spring Cloud Gateway, JWT, OAuth2, Django, Node.js

Frontend: HTML, CSS, React, Angular, Redux, Context API

Databases: PostgreSQL, MongoDB, MySQL

Caching & Messaging: Redis, Event-Driven Architecture

DevOps & Cloud: Azure, AWS (EC2, S3, IAM, CloudWatch, Lambda, RDS), Docker, Kubernetes, Jenkins, GitLab CI/CD, Linux, Terraform, Prometheus, Grafana

Core Concepts: DSA, OOP, DBMS, Operating Systems, Computer Networks

Education

Bachelor of Engineering in Computer Engineering

D.Y. Patil College of Engineering, Pune

2020 - 2024

CGPA: 9.0/10.0

Achievements

- Flipkart GRID 4.0:** Ranked in the Top 5% nationwide out of thousands of applicants in one of India's largest engineering challenges.
- Achieved CodeChef rating of **1680** and Codeforces rating of **1260**, solving **500+ DSA problems**.
